  - 606.5 Animals in the Classroom
  - 606.7 Student Field Trips and Excursions
  - 606.8 School Assembly
  - 606.9 Insufficient Classroom Space
  - 606.10 Early Release for Seniors
  
- 607 Instructional Services
  - 607.1 Student Guidance and Counseling Program
  - 607.2 Student Health Services
  
- 608 Adult Education
  
- 609 Community Education

## SCHOOL CALENDAR

The school calendar will accommodate the education program of the school district. The school calendar is for a minimum of one-hundred and eighty days or 1080 hours and includes, but is not limited to, the days for student instruction, staff development, in-service days and teacher conferences.

The academic school year for students is for a minimum of one-hundred and eighty days or 1080 hours in the school calendar. The academic school year for students shall begin no sooner than August 23. Employees may be required to report to work at the school district prior to this date.

Special education students may attend school on a school calendar different from that of the regular education program consistent with their Individualized Education Program.

The board, in its discretion, may excuse graduating seniors from up to five days or 30 hours of instruction after the school district requirements for graduation have been met. The board may also excuse graduating seniors from making up days missed due to inclement weather if the student has met the school district's graduation requirements.

It is the responsibility of the superintendent to develop the school calendar for recommendation, approval, and adoption by the board annually.

The board may amend the official school calendar when the board considers the change to be in the best interests of the school district's education program. The board shall hold a public hearing on any proposed school calendar prior to adopting the school calendar.

## SCHOOL DAY

The student school day for grades one through twelve will consist of a minimum of six hours, not including the lunch period. The school day consists of the schedule of class instruction and class activities as established and sponsored by the school district. Time during which students are released from school for parent/teacher conferences may be counted as part of students' instructional time. The minimum school day will meet the requirements as established for the operation of accredited schools.

The board may define the number of days kindergarten will be held and the length of each school day for the students attending kindergarten. The school day will consist of a schedule as recommended by the superintendent and approved by the board.

The school district may also record a day of school with less than the minimum instructional hours if the total hours of instructional time for grades one through twelve in any five consecutive school days equals a minimum of thirty hours, even though any one day of school is less than the minimum instructional hours because of a staff development opportunity provided for the instructional staff or parent-teacher conferences have been scheduled beyond the regular school day. If the total hours of instructional time for the first four consecutive days equal at least thirty hours because parent-teacher conferences have been scheduled beyond the regular school day, the school district may record zero hours of instructional time on the fifth consecutive school day as a school day. Schedule revisions and changes in time allotments will be made by the superintendent.

When the school is forced to close due to weather or other emergencies, the part of the day during which school was in session will constitute a school day.

It is the responsibility of the superintendent to inform the board annually of the length of the school day.

## CURRICULUM DEVELOPMENT

Curriculum development is an ongoing process in the school district and consists of both research and design. Research is the studious inquiry and critical investigation of the various content areas for the purpose of revising and improving curriculum and instruction based on relevant information pertaining to the discipline. This study is conducted both internally (what and how we are currently doing at the local level) and externally (what national standards, professional organizations, recognized experts, current research, etc. tell us relative to the content area). Design is the deliberate process of planning and selecting the standards and instructional strategies that will improve the learning experiences for all students.

A systematic approach to curriculum development (careful research, design, and articulation of the curriculum) serves several purposes:

- Focuses attention on the content standards of each discipline and ensure the identified learnings are rigorous, challenging, and represent the most important learning for our students.
- Increases the probability that students will acquire the desired knowledge, skills and dispositions and that our schools will be successful in providing appropriate learning experiences.
- Facilitates communication and coordination.
- Improves classroom instruction.

The superintendent is responsible for curriculum development and for determining the most effective method of conducting research and design activities. A curriculum framework will describe the processes and procedures that will be followed in researching, designing, and articulating each curriculum area. This framework will at a minimum, describe the processes and procedures for the following curriculum development activities to:

- Study the latest thinking, trends research and expert advice regarding the content/discipline;
- Study the current status of the content/discipline (what and how well students are currently learning);
- Identify content standards, benchmarks, and grade level expectations for the content/discipline;
- Describe the desired learning behaviors, teaching and learning environment related to the content/discipline;
- Identify differences in the desired and present program and develop a plan for addressing the differences;
- Communicate with internal and external publics regarding the content area;
- Involve staff, parents, students, and community members in curriculum development decisions;
- Verify integration of local, state, and/or federal mandates (MCNS, school-to-work, etc);
- Verify how the standards and benchmarks of the content/discipline support each of the broader student learning goals and provide a K-12 continuum that builds on the prior learning of each level.

It is the responsibility of the superintendent to keep the board apprised of necessary curriculum revisions, progress or each content area related to curriculum development activities, and to develop administrative regulations for curriculum development including recommendations to the board.

## CURRICULUM IMPLEMENTATION

Without careful and continuing attention to implementation, planned changes in curriculum and instruction rarely succeed as intended. How change is put into practice, to a large extent, determines how well it fares.

Implementation refers to what actually happens in practice as compared to what was supposed to happen. Curriculum implementation includes the provision of organized assistance to staff in order to ensure that the newly developed curriculum and the most powerful instructional strategies are actually delivered at the classroom level. There are two components of any implementation effort that must be present to guarantee the planned changes in curriculum and instruction succeed as intended:

- Understanding the conceptual framework of the content/discipline being implemented; and,
- Organized assistance to understand the theory, observe exemplary demonstrations, have opportunities to practice professional development using the Iowa Professional Development Model.

The superintendent shall be responsible for curriculum implementation and for determining the most effective way of providing organized assistance and monitoring the level of implementation. A curriculum framework shall describe the processes and procedures that will be followed to assist all staff in developing the knowledge and skills necessary to successfully implement the developed curriculum in each content area. This framework will, at a minimum, describe the processes and procedures for the following curriculum implementation activities to:

- Study and identify the best instructional practices and materials to deliver the content;
- Describe procedures for the purchase of instructional materials and resources (See Policy 605.1. Boards should insert the policy number to cross reference their policy on Instructional Materials Selection);
- Identify/develop exemplars that demonstrate the learning behaviors, teaching, and learning environment to deliver the content;
- Study the current status of instruction in the content area (how teachers are teaching);
- Compare the desired and present delivery system, identify differences (gap analysis), and develop a plan for addressing the differences;
- Organize staff into collaborative study teams to support their learning and implementation efforts (address the gaps);
- Provide ongoing professional development related to instructional strategies and materials that focuses on theory, demonstration, practice and feedback;
- Regularly monitor and assess the level of implementation;
- Communicate with internal and external publics regarding curriculum implementation;
- Involve staff, parents, students, and community members in curriculum implementation decisions.

It shall be the responsibility of the superintendent to keep the board apprised of curriculum implementation activities, progress of each content area related to curriculum implementation activities, and to develop administrative regulations for curriculum implementation including recommendations to the board.

## CURRICULUM EVALUATION

Regular evaluation of the total curriculum is necessary to ensure that the written and delivered curriculum is having the desired effect for students.

Curriculum evaluation refers to an ongoing process of collecting, analyzing, synthesizing, and interpreting information to aid in understanding what students know and can do. It refers to the full range of information gathered in the School District to evaluate (make judgments about) student learning and program effectiveness in each content area.

Curriculum evaluation must be based on information gathered from a comprehensive assessment system that is designed for accountability and committed to the concept that all students will achieve at high levels, is standards-based, and informs decisions which impact significant and sustainable improvements in teaching and student learning.

The superintendent shall be responsible for curriculum evaluation and for determining the most effective way of ensuring that assessment activities are integrated into instructional practices as part of school improvement with a particular focus on improving teaching and learning. A curriculum framework shall describe the procedures that will be followed to establish an evaluation process that can efficiently and effectively evaluate the total curriculum. This framework will, at a minimum, describe the procedures for the following curriculum evaluation activities:

;

- Develop a comprehensive assessment plan;
- Select/develop assessment tools and scoring procedures that are valid and reliable;
- Identify procedures for collecting assessment data;
- Identify procedures for analyzing and interpreting information and drawing conclusions based on the data (including analysis of the performance of various sub-groups of students);
- Identify procedures for establishing at least three levels of performance (specific to the content standard and the assessment tool when appropriate) to assist in determining whether students have achieved at a satisfactory level (at least two levels describe performance that is proficient or advanced and at least one level describes students who are not yet performing at the proficient level);
- Use procedures for using assessment information to determine long-range and annual improvement goals;
- Use procedures for using assessment information in making decisions focused on improving teaching and learning (data based decision making);
- Provide support to staff in using data to make instructional decisions;
- Follow procedures for regular and clear communication about assessment results to the various internal and external publics (mandatory for communication about students receiving special education services);

## CURRICULUM EVALUATION

- Verify that assessment tools measure the curriculum that is written and delivered;
- Identify procedures for deciding when multiple assessment measures are necessary for making good decisions and drawing appropriate conclusions about student learning;
- Identify roles and responsibilities of key groups;
- Involve staff, parents, students, and community members in curriculum evaluation;
- Ensure participation of eligible students receiving special education services in district-wide assessments.

It shall be the responsibility of the superintendent to keep the board apprised of curriculum evaluation activities, the progress of each content area related to curriculum evaluation activities, and to develop administrative regulations for curriculum evaluation including recommendations to the board.

PILOT - EXPERIMENTAL - INNOVATIVE PROJECTS

The board welcomes new ideas in curriculum. Proposals for pilot or experimental projects shall first be reviewed and analyzed by the superintendent. Projects recommended by the superintendent will be considered by the board. Pilot and experimental projects approved by the board, the Iowa Department of Education, or the U. S. Department of Education may be utilized in the education program.

Students, who may be or are asked to participate in a research or experimental project or program, must have their parents' written consent on file prior to participating in the project or program. A research or experimental program or project requiring parents' prior written consent is a program or project designed to explore or develop new or unproven teaching methods or techniques. These programs or projects shall be designated as research or experimental projects or programs. The educational materials of a program or project designated as a research or experimental program or project may be inspected and reviewed by the parents of the students participating or being considered for participation in the program or project. The inspection and review by the parents shall be in accordance with board policy 605.2, "Instructional Materials Inspection."

It shall be the responsibility of the superintendent to develop administrative regulations regarding this policy.

## BASIC INSTRUCTION PROGRAM

The basic instruction program shall include the courses required for each grade level by the State Department of Education. The instructional approach will be nonsexist and multicultural.

The basic instruction program of students enrolled in pre-kindergarten and kindergarten shall be designed to develop healthy emotional and social habits, language arts and communication skills, the capacity to complete individual tasks, character education and the ability to protect and increase physical well-being with attention given to experiences relating to the development of life skills and human growth and development.

The basic instruction program of students enrolled in grades one through six shall include English-language arts, social studies, mathematics, science, health, human growth and development, physical education, music, and visual art.

The basic instruction program of students enrolled in grades seven and eight shall include English-language arts, social studies, mathematics, science, health, human growth and development, family and consumer, career, technology education, physical education, music, and visual art.

The basic instruction program of students enrolled in grades nine through twelve shall include English-language arts (8 units), social studies (5 units), mathematics (6 units), science (5 units), health (1 unit), physical education (1 unit), fine arts (3 units), foreign language (4 units), and vocational education (12 units).

The board may, in its discretion, offer additional courses in the instruction program for any grade level.

Each instruction program shall be carefully planned for optimal benefit of each student taking into consideration the financial condition of the school district and other factors deemed relevant by the board or superintendent. Each instruction program's plan should describe the program, its goals, the effective materials, the activities and the method for student evaluation.

It shall be the responsibility of the superintendent to develop administrative regulations stating the required courses and optional courses for kindergarten, grades one through six, grades seven and eight, and grades nine through twelve.

## SPECIAL EDUCATION

The board recognizes some students have different educational needs than other students. The board shall provide an appropriate education program and related services to students identified in need of special education. The special education services will be provided from birth until the appropriate education is completed, age twenty-one or to maximum age allowable in accordance with the law. Students requiring special education shall attend regular education classes, participate in extracurricular activities and receive services in a regular education setting to the maximum extent possible. The appropriate education for each student shall be written in the student's Individualized Education Program (IEP).

Special education students shall be required to meet the requirements stated in board policy or in their IEPs for graduation. It shall be the responsibility of the superintendent and the area education agency director of special education to provide or make provisions for appropriate special education and related services.

Children from birth through age 2 and children age 3 through age 5 shall be provided comprehensive special education services within the public education system. The school district shall work in conjunction with the area education agency to provide services, at the earliest appropriate time, to children with disabilities from birth through age 2. This shall be done to ensure a smooth transition of children entitled to early childhood special education services.

MULTICULTURAL/GENDER FAIR EDUCATION

Students shall have an equal opportunity for a quality education without discrimination, regardless of their race, religion, socioeconomic status, color, sex, marital status, national origin, creed, sexual orientation, gender identity or disability.

The education program shall be free of discrimination and provide equal opportunity for the students. The education program shall foster knowledge of and respect and appreciation for the historical and contemporary contributions of diverse cultural groups, as well as men and women, to society. Special emphasis shall be placed on Asian Americans, African Americans, Hispanic Americans and persons with disabilities. It shall also reflect the wide variety of roles open to both men and women and provide equal opportunity to both sexes.

## HEALTH EDUCATION

Students in grade levels one through twelve shall receive, as part of their health education, instruction about personal health; food and nutrition; environmental health; safety and survival skills; consumer health; family life; human growth and development; substance abuse and non-use, including the effects of alcohol, tobacco, drugs and poisons on the human body; human sexuality; self-esteem; stress management; interpersonal relationships; emotional and social health; health resources; prevention and control of disease; and communicable diseases, including acquired immune deficiency syndrome. The purpose of the health education program is to help each student protect, improve and maintain physical, emotional and social well-being.

The areas stated above shall be included in health education and the instruction shall be adapted at each grade level to aid understanding by the students.

Parents who object to health education instruction in human growth and development may file a written request that the student be excused from the instruction. The written request shall include a proposed alternate activity or study acceptable to the superintendent. The superintendent shall have the final authority to determine the alternate activity or study.

HUMAN GROWTH AND DEVELOPMENT STUDENT EXCUSE FORM

Student Name: \_\_\_\_\_ Grade: \_\_\_\_\_

Parent/Guardian : \_\_\_\_\_ Phone #: \_\_\_\_\_

Please list the curricular objective(s) from which you wish to have your child excused and the class or grade in which each is taught. An example is provided for you to follow.

|     | <u>Objective</u>   | <u>Class/Grade</u> |
|-----|--|--------------------|
| Ex. | To understand the consequences of responsible and irresponsible sexual behavior. | Health Education/6 |
| 1.  |  |                    |
| 2.  |  |                    |
| 3.  |  |                    |
| 4.  |  |                    |
| 5.  |  |                    |
| 6.  |  |                    |
| 7.  |  |                    |
| 8.  |  |                    |

I have reviewed the Human Growth and Development program goals, objectives, and materials and wish my child to be excused from class when these objectives are taught. I understand my child will incur no penalty but may/shall be required to complete an alternative assignment that relates to the class and is consistent with assignments required of all students in the class.

PHYSICAL EDUCATION

Students in grades one through twelve shall be required to participate in physical education courses unless they are excused by the principal of their attendance center.

Students may be excused from physical education courses if the student presents a written statement from a doctor stating that such activities could be injurious to the health of the student or the student has been exempted because of a conflict with the student's religious beliefs.

Students in grades 9-12 may also be excused from physical education courses if the student is enrolled in academic courses not otherwise available.

Twelfth grade students may also be excused from physical education courses if the student is enrolled in a cooperative, work study or other educational program authorized by the school which requires the student's absence from school.

Students who will not participate in physical education must have a written request or statement from their parents.

## CAREER EDUCATION

Preparing students for careers is one goal of the education program. Career education is included in the education program for grades kindergarten through twelve. This education shall include, but not be limited to, awareness of self in relation to others and the needs of society, exploration of employment opportunities, experiences in personal decision-making, and experiences of integrating work values and work skills into their lives.

It shall be the responsibility of the superintendent to assist licensed employees in finding ways to provide career education in the education program. The board, in its review of the curriculum, shall review the means in which career education is combined with other instructional programs.

## TEACHING ABOUT RELIGIONS

The school district is required to keep the practice of religions out of the school curriculum. The board recognizes the key role religion has played in the history of the world and authorizes the study of religions history and traditions as part of the curriculum. Preferential or derogatory treatment of a single religion shall not take place.

It shall be the responsibility of the superintendent to ensure the study of religion in the schools in keeping with the following guidelines:

- the proposed activity must have a secular purpose;
- the primary objective of the activity must not be one that advances or inhibits religion; and
- the activity must not foster excessive governmental entanglement with religion.

## TEACHING ABOUT RELIGIONS REGULATION - RELIGIOUS HOLIDAYS

The historical and contemporary significance of religious holidays may be included in the education program provided that the instruction is presented in an unbiased and objective manner. The selection of holidays to be studied shall take into account major celebrations of several world religions, not just those of a single religion. Holiday-related activities shall be educationally sound and sensitive to religious differences and shall be selected carefully to avoid the excessive or unproductive use of school time. Teachers shall be especially careful in planning activities that are to take place immediately preceding or on a religious holiday.

Music, art, literature and drama having religious themes (including traditional carols, seasonal songs and classical music) shall be permitted if presented in an objective manner without sectarian indoctrination. The emphasis on religious themes shall be only as extensive as necessary for a balanced and comprehensive study or presentation. Religious content included in student performances shall be selected on the basis of its independent educational merit and shall seek to give exposure to a variety of religious customs, beliefs and forms of expression. Holiday programs, parties or performances shall not become religious celebrations or be used as a forum for religious worship, such as the devotional reading of sacred writings or the recitations of prayers.

The use of religious symbols (e.g. a cross, menorah, crescent, Star of David, lotus blossom, nativity scene or other symbol that is part of a religious ceremony) shall be permitted as a teaching aid, but only when such symbols are used temporarily and objectively to give information about a heritage associated with a particular religion. The Christmas tree, Santa Claus, Easter eggs, Easter bunnies and Halloween decorations are secular, seasonal symbols and as such can be displayed in a seasonal context.

Expressions of belief or nonbelief initiated by individual students shall be permitted in composition, art forms, music, speech and debate. However, teachers may not require projects or activities which are indoctrinational or force students to contradict their personal religious beliefs or nonbeliefs.

## ACADEMIC FREEDOM

The board believes students should have an opportunity to reach their own decisions and beliefs about conflicting points of view. Academic freedom is the opportunity of licensed employees and students to study, investigate, present, interpret, and discuss facts and ideas relevant to the subject matter of the classroom and appropriate to and in good taste with the maturity and intellectual and emotional capacities of the students.

It shall be the responsibility of the teacher to refrain from advocating partisan causes, sectarian religious views, or biased positions in the classroom or through teaching methods. Teachers are not discouraged from expressing personal opinions as long as students are aware it is a personal opinion and students are allowed to reach their own conclusions independently.

It shall be the responsibility of the principal to ensure academic freedom is allowed but not abused in the classroom.

## TEACHING CONTROVERSIAL ISSUES

A "controversial issue" is a topic of significant academic inquiry about which substantial groups of citizens of this community, this state or this nation hold sincere, conflicting points of view.

It is the belief of the board that controversial issues should be fairly presented in a spirit of honest academic freedom so that students may recognize the validity of other points of view but can also learn to formulate their own opinions based upon dispassionate, objective, unbiased study and discussion of the facts related to the controversy.

It shall be the responsibility of the instructor to present full and fair opportunity and means for students to study, consider and discuss all sides of controversial issues including, but not limited to, political philosophies.

It shall be the responsibility of the instructor to protect the right of the student to study pertinent controversial issues and to allow the student to express personal opinions without jeopardizing the student's relationship with the teacher.

It shall be the responsibility of the teacher to refrain from advocating partisan causes, sectarian religious views, or selfish propaganda of any kind through any classroom or school device; however, an instructor shall not be prohibited from expressing a personal opinion as long as students are encouraged to reach their own decisions independently.

The board encourages full discussion of controversial issues in a spirit of academic freedom that shows students that they have the right to disagree with the opinions of others but that they also have the responsibility to base the disagreement on facts and to respect the right of others to hold conflicting opinions.

GLOBAL EDUCATION

Because of our growing interdependence with other nations in the world, global education shall be incorporated into the education program for grades kindergarten through twelve. Students shall have the opportunity to acquire a perspective on world issues, problems, and prospects for an awareness of the relationship between an individual's self-interest and the concerns of people elsewhere in the world.

CITIZENSHIP

Being a citizen of the United States, of Iowa and of the school district community entitles students to special privileges and protections as well as requiring the students to assume civic, economic and social responsibilities and to participate in their country, state and school district community in a manner that entitles them to keep these rights and privileges.

As part of the education program, students shall have an opportunity to learn about their rights, privileges, and responsibilities as citizens of this country, state and school district community. As part of this learning opportunity students shall be instructed in the elements of good citizenship and the role quality citizens play in their country, state and school district community.

## SUMMER SCHOOL INSTRUCTION

The Danville Community School District recognizes the importance of ongoing learning opportunities for students. As such, the district shall offer summer school instruction in accordance with the following:-

- Beginning in the summer of 2017, the district shall offer, unless a waiver from this requirement is granted by the Iowa Department of Education, an intensive summer literacy program for students assessed as exhibiting a substantial deficiency in reading. The applicable legal requirements for the intensive summer literacy program, including, but not limited to those relating to criteria and notification, shall be followed.
- The board, in its discretion, may offer summer school for one or more courses and student activities for students who need additional help and instruction or for enrichment in those areas. Upon receiving a request for summer school, the board will weigh the benefit to the students and the school district as well as the school district's budget and availability of licensed employees to conduct summer school.
- If a child who is eligible for special education has been determined to need extended school year services as necessary to receive a free appropriate public education, as determined according to state and federal law, such services shall be provided as described in the child's individualized education program.

It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

## PRIVATE INSTRUCTION

The Danville Community School District recognizes that families with students of compulsory attendance age may select alternative forms of education outside the traditional school setting, including private instruction. The applicable legal requirements for private instruction, including, but not limited to those relating to reporting and evaluations for progress, shall be followed.

Except as otherwise exempted, in the event a child of compulsory attendance age as defined by law does not attend public school or an accredited nonpublic school, the child must receive private instruction. Private instruction means instruction using a plan and a course of study in a setting other than a public or organized accredited nonpublic school.

Private instruction can take the form of competent private instruction and independent private instruction. The Iowa Department of Education recognizes three options for delivery of this form of instruction: two options for delivery of competent private instruction and one option for independent private instruction.

Competent private instruction means private instruction provided on a daily basis for at least one hundred forty-eight days during a school year, to be met by attendance for at least thirty-seven days each school quarter, which results in the student making adequate progress. Competent private instruction is provided by or under the supervision of a licensed practitioner or by other individuals identified in law.

Independent private instruction means instruction that meets the following criteria: (i) is not accredited, (ii) enrolls not more than four unrelated students, (iii) does not charge tuition, fees, or other remuneration for instruction, (iv) provides private or religious-based instruction as its primary purpose, (v) provides enrolled students with instruction in mathematics, reading and language arts, science, and social studies, (vi) provides, upon written request from the superintendent of the school district in which the independent private instruction is provided, or from the director of the department of education, a report identifying the primary instructor, location, name of the authority responsible for the independent private instruction, and the names of the students enrolled, (vii) is not a nonpublic school and does not provide competent private instruction as defined herein, and (viii) is exempt from all state statutes and administrative rules applicable to a school, a school board, or a school district, except as otherwise provided by law.

It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

## FORM A

(Completed by the Parent, Guardian, or Legal or Actual Custodian) Date when returned \_\_\_\_\_

**Competent Private Instruction Report**Iowa Code section 299.4  
2015-2016 School Year

Required information: See instructions before completing.

The following information is required in accordance with Iowa Code section 299.4. A parent, guardian, or legal or actual custodian enrolling a student in CPI under Option 1 must submit this report in duplicate to the school district of residence. A parent, guardian, or legal or actual custodian enrolling a student in CPI under Option 2 may submit this report in duplicate to the school district of residence. A parent, guardian, or legal or actual custodian enrolling a student in CPI under Option 2 and electing dual enrollment **must** submit this report in duplicate to the school district of residence. This report is required, under the conditions described above, if the student is 6 years old on or before September 15 and not yet 16 years old and does not attend an Iowa public or accredited nonpublic school. **Return this form to the school district secretary by September 1 or within 14 calendar days of removing the student from a public or accredited nonpublic school or 14 calendar days from moving into the school district.** (If the student will be enrolled in a home school assistance program, please notify the district if the student will also be dually enrolled.) This form is not applicable to families choosing Independent Private Instruction, or for those using CPI Option 2 without dual enrolling or opting to report.

- 1) Child and Family Information: (Name and birth date of child under competent private instruction.)

|              |                    |
|--------------|--------------------|
| <b>Name:</b> | <b>Birth Date:</b> |
|              |                    |

- 2) Name and address of person filing report. (Please check the appropriate box after "name")

|                           |                   |                 |                                  |
|---------------------------|-------------------|-----------------|----------------------------------|
| <b>Name</b>               | <b>Parent</b>     | <b>Guardian</b> | <b>Legal or Actual Custodian</b> |
| <b>Address:</b>           | <b>City, Zip:</b> |                 |                                  |
|                           |                   |                 |                                  |
| <b>Phone # (optional)</b> |                   |                 |                                  |

- 3) Immunization Evidence: If filing Form A for the 1st time, attach immunization information.
- 
- (Proof of immunization is required of all children receiving CPI without the private exemption, including those HSAP enrolled or dually enrolled)

- 4) Instructional Program Information:

*Outline the course of study on a separate page(s). Attach lesson plans on separate page(s).*

|                 |                                     |                    |
|-----------------|-------------------------------------|--------------------|
| <b>Subject:</b> | <b>Text, Publisher, and Author:</b> | <b>Time Spent:</b> |
|-----------------|-------------------------------------|--------------------|

- 5) List number of days of instruction under competent private instruction \_\_\_\_\_ (must be at least 148 days per academic year, Iowa Code section 299A.1)
- 
- 6) If an appropriately licensed Iowa teacher will provide or supervise the parent, guardian, or legal or actual custodian in providing the instruction, give the teacher's name and folder number.

|                           |                                       |
|---------------------------|---------------------------------------|
| <b>Name:</b>              | <b>Teacher Folder Number:</b>         |
|                           |                                       |
| <b>Address:</b>           | <b>Teacher signature- (optional):</b> |
|                           |                                       |
| <b>City, State / Zip:</b> | <b>Phone Number- (optional):</b>      |
|                           |                                       |

- 7) If an Iowa licensed teacher is not providing instruction or supervising, the parent, guardian, or legal or actual custodian providing instruction to the child, the child may, but is not required, to take an annual assessment. (Please consult the Department of Education's list of acceptable annual assessments-page 23). If standardized testing is desired, notify the school district in order to receive testing dates by October 1
- <sup>st</sup>
- .

**IMPORTANT: If you have selected any of the optional services listed on the back of Form A, please check here:** \_\_\_\_\_  
**Parent/Guardian/Legal or Actual Custodian Signature (required):**

The Following Information is Optional....

However, if you want your child to access special education programs or services, or if your child plans to participate in any academic or extracurricular activities, at your local school district, complete the following #8 and #9.

**NOTE:** It is not necessary to dual enroll your child  
-to access district-provided driver education (Iowa Code 321.178)  
-to have your child's annual assessment provided at no charge to you.  
Iowa Code section 299A.4.

- 8) If the child is currently identified as a child requiring special education, prior approval must be sought from the special education director at the Area Education Agency before the child may receive Competent Private Instruction in Iowa unless the parent, guardian, or legal or actual custodian of the child does not consent to initial evaluation or to reevaluation of the child for receipt of special education services or programs. Iowa Code section 299A.9.

Is the child currently identified as a child requiring special education pursuant to the rules of special education? Yes \_\_\_ No \_\_\_

Do you consent to initial evaluation or to reevaluation of the child for receipt of special education services or programs? Yes \_\_\_ No \_\_\_

- 9) Do you desire dual enrollment in the public school for the child under competent private instruction? Yes \_\_\_ No \_\_\_ (If no, skip to #10.)

- A. Dual enrollment is desired for:  
B. Academic \_\_\_ Extra-curricular activities \_\_\_ Special Education \_\_\_ (Check all that apply)  
C. Grade Level for the 2015-2016 school year \_\_\_\_\_  
D. Subjects or Activities you wish your child to dual enroll in:

| 1st Semester: | 2nd Semester: |
|---------------|---------------|
|               |               |
|               |               |
|               |               |
|               |               |

- 10) Do you desire to enroll in a Home School Assistance Program if offered? Yes \_\_\_ No \_\_\_

### *Instructions for Form A*

Parents, guardians, or legal or actual custodians with children under competent private instruction under Option 1, or under competent private instruction Option 2 with dual enrollment or optional reporting need to submit two copies of Form A to the local public school district. After the school district receives and checks the form for completion, one copy of the form should be filed with the local district and the other copy the district sends to the secretary of the AEA. **DO NOT SEND A COPY to the Department of Education. NOTE: If you change your district of residence during the school year, you must also complete this form for your new district of residence.**

The due date is **September 1<sup>st</sup>** or no more than 14 calendar days (for a minimally completed form and 30 calendar days for a fully completed form) after the child has been removed from an Iowa accredited school or after moving into the district.

**The form is designed to allow the parent, guardian, or legal or actual custodian to provide the required information, items 1-6 and parent/guardian/legal or actual custodian signature.** Item 7 is informational. Items 8, 9 and 10 are optional. **If you plan to dual enroll your child in an academic course or extracurricular activity, complete item 9. (See the timeline in the Private Instruction Handbook ([Link to Timeline](#)) for an explanation of the dual enrollment deadline.)**

**Items 1 & 2:** All information must be supplied. Only one child per form.

**Item 3:** If filing Form A for the first time, (including those filing for a child being enrolled in a HSAP), attach immunization evidence or in lieu of such evidence, file a doctor's statement or an affidavit of religious exemption as outlined in Iowa Code section 139A.8. For exemption forms, please call 1-888-398-9696.

**Item 4:** List the subjects taught, the texts used, the text publisher or author, and the amount of time spent on each subject listed. Parents, guardians, or legal or actual custodians need to attach the course of study information separately. Lesson plans may be accepted for the entire year or for shorter periods of time. The lessons should show evidence of planning.

**Item 5:** The number listed must be at least 148 school days. Exception: If a child was enrolled in a public or accredited nonpublic school during the current academic year, then switched to home schooling, the number on this line may be the number of days remaining of the 148 school days after subtracting the number of days the child was in attendance in the school.

**Item 6:** In some situations, a person other than the child's parent, guardian, or legal or actual custodian either provides or supervises the instruction for the child. For those providing competent private instruction to the child under Iowa Code section 299A.2, this person must hold a valid Iowa-teaching license appropriate to the age and grade of the child. The teacher's name, address, and folder number must be provided in this item. The school district will check the licensure of this person by contacting the Iowa Board of Educational Examiners at the following website [www.boee.iowa.gov](http://www.boee.iowa.gov) or by calling (1-515-281-3245). If item 6 is blank, and the child is between the ages of 7 and 15, inclusive, during the current school year, the child is subject to the baseline evaluation/annual assessment requirement. (If parent/guardian/legal or actual custodian is a licensed teacher or under the supervision of a licensed teacher who holds a license appropriate to the age and grade of the child, the child is not required to take an annual assessment. If the child is enrolled in a private correspondence school accredited by a regional or national accrediting organization, the child's annual report card can be submitted as a report of annual assessment. A courtesy test may be requested, see note in item number 7.)

**Item 7:** Children receiving competent private instruction under Option 2 are subject to the assessment requirement if they fit these criteria:

1. AGE--the child is between the ages of 7 and 15, inclusive, of the current school year.
2. TEACHER--the child's instruction is not provided or supervised by a person holding a valid Iowa teacher license appropriate to the age and grade of the child.
3. The parent, guardian, or legal or actual custodian has opted-in to the optional reporting under Option 2. Student is dual enrolled with the district for academics or extracurricular activities.

All children fitting these criteria may but are not required to have a baseline evaluation in their first year of home schooling. Each year after the baseline evaluation, as long as they still fit the criteria, they may but are not required to have an annual assessment of educational progress, which may be conducted using standardized testing, portfolio assessment, or a report card from an accredited correspondence school. Children under or over the age limits by September 15 are not subject to the annual assessment. Likewise, if an appropriately licensed Iowa teacher provides or supervises a parent, guardian, or legal or actual custodian in providing the child's instruction, the child is not subject to assessment, regardless of age.

Subjects that may be assessed:

- -For children up through grade 5: Reading, Language Arts, and Mathematics:
- -For children in grades 6-12: Reading, Language Arts, Mathematics, Science, and Social Studies.

**Home-schooled children for whom standardized testing has been selected as their method of annual assessment may be tested annually in these subjects even if the school district does not test its own students. National percentile ranks and national grade equivalents must be included on the score report from the test scoring service.**

A detailed list of tests is located in the Private Instruction Handbook (page 23) and also on the website located at <https://www.educateiowa.gov/pk-12/options-educational-choice/competent-private-instruction-home-schooling>

School Districts or AEAs providing the testing should attempt to accommodate these preferences. School Districts may provide the testing themselves or may delegate it to the AEA. School Districts should notify parents, guardians, or legal or actual custodians by October 1 of the dates, sites, and time of testing. If parents, guardians, or legal or actual custodians of a student subject to the assessment option request testing in their home, it must be provided at that site and at no cost to the parents, guardians, or legal or actual custodians. If a portfolio is used as an annual assessment, the parent, guardian, or legal or actual custodian identifies the licensed teacher to evaluate the portfolio. The deadline for completing standardized testing or submitting portfolio to evaluator is May 1st of each year and the test administrator or portfolio evaluator must send a copy of the results to the parents, guardians, legal or actual custodians, and the school district by June 30. An evaluator holding an elementary teaching license is appropriate for evaluating a portfolio for students in grades K-6, a middle school license for grades 5-8, and a secondary classroom teacher license is appropriate for grades 7-12. 281-IAC 31.8(3)

**Special note about “courtesy testing.”** Occasionally, parents, guardians, or legal or actual custodians of children who are not subject to the baseline evaluation/annual assessment option may want their child tested anyway. The district or AEA must provide the testing free of charge to the parents, guardians, or legal or actual custodians. The results will go to the district or AEA.

**Items 8, 9, and 10 are optional**

**Item 8:** A child of compulsory attendance age, who is identified as requiring special education under chapter 256B and is receiving Competent Private Instruction, is eligible for placement under competent private instruction with prior approval of the placement by the director of special education of the area education agency of the child's district of residence. It is the duty of the parent, guardian, or legal or actual custodian to send a copy of Form A to the school district and the Area Education Agency Director of Special Education for approval. Iowa Code section 299A.9 However, this consent is not required if the parent, guardian, legal, or actual custodian does not consent to initial evaluation or to reevaluation of the child for receipt of special education services or programs.

**Note: A child who receives CPI to access special education services must be dually enrolled. (See Item 9)**

**Item 9:** Dually enrolled students may participate in coursework or activities on the same basis as regularly enrolled students. This item is required if parents, guardians, or legal or actual custodians wish to have their children participate in an academic course or extracurricular activity. Dual enrollment is also required if the child is to receive available texts or supplemental instructional materials (on the same basis as they are provided to enrolled students) or special education programs or services. If parents, guardians, or legal or actual custodians want their child dually enrolled in a course or activity the course or activities need to be listed. Districts need to develop procedures to ensure that dually enrolled students and their parents, guardians, or legal or actual custodians are given adequate notice of the time and place of the activities they have chosen. The deadline for dual enrollment is September 15 if the parents, guardians, or legal or actual custodians begin CPI at the start of the school year, 14 calendar days after moving, or 14 calendar days after withdrawing from school. **The district may deny dual enrollment if the request is after the deadline.**

**Item 10:** School districts are not required to offer a home school assistance program. If your local school district has a program, an Iowa licensed teacher who is hired by the school district will supervise your student's instruction. If your child wishes to participate in courses or activities that are offered by the school district, the child must be dually enrolled in addition to being HSAP enrolled. (Responses to this item help districts without a HSAP determine if they need to start one)

**SCHOOL DISTRICTS – Please give parents, guardians, or legal or actual custodians the FERPA notification letter when a Form A is requested. Districts shall determine what directory information is and who the local contact is. When the parent, guardian, or legal or actual custodian gives “opt out” notification instructions to the school district, the AEA's have requested that the LEA send a copy to them.**

**PARENTS/GUARDIANS/LEGAL or ACTUAL CUSTODIANS – Please review the FERPA form and return to the school district.**

## INDIVIDUALIZED INSTRUCTION

The board's primary responsibility in the management of the school district is the operation and delivery of the regular education program. Generally, students attending the school district shall receive the regular education program offered by the district. Only in exceptional circumstances will the board approve students receiving individualized instruction at the expense of the school district.

Recommendations from the superintendent for individualized instruction shall state the need for the instruction, the objectives and goals sought for the instruction, the employee requirements for the instruction, the implementation procedures for the instruction and the evaluation procedures and processes that will be used to assess the value of the instruction.

It shall be the responsibility of the superintendent to develop administrative regulations for individualized instruction.

## INTERNATIONAL STUDY

The board recognizes some students may wish to take courses outside the country. Generally, students must obtain board approval prior to participating in the international student exchange program if the student wants to receive credit for the program. If it is a continuing program which has received a favorable evaluation by the administration and the program will be carried out in the future as it has in the past, prior board approval is not required.

The board's approval is not an assumption of liability, but rather an approval of the credits from the program toward graduation requirements. The students, employees or others traveling with the students shall assume all costs and maintain personal and liability insurance protection. The school district assumes no cost or liability for the participants.

It shall be the responsibility of the superintendent to keep the board informed of ongoing programs and to bring new programs to the board's attention.

PROGRAM FOR TALENTED AND GIFTED STUDENTS

The board recognizes some students require programming beyond the regular education program. The board shall identify students with special abilities and provide education programming.

It shall be the responsibility of the superintendent to develop a talented and gifted program which provides for identifying students, for program evaluation, and for training of employees to optimize the potential of each student in the program identified.

Legal Reference: Iowa Code §§ 257.42-.49 (1999).

PROGRAM FOR AT-RISK STUDENTS

The board recognizes some students require additional assistance in order to graduate from the regular education program. The board shall provide a plan to encourage and provide an opportunity for at-risk students to achieve their potential and obtain their high school diploma.

It shall be the responsibility of the superintendent to develop a plan for students at-risk which provides for identifying students, for program evaluation, and for the training of employees to optimize the potential of each student in the program identified.

## RELIGIOUS-BASED EXCLUSION FROM A SCHOOL PROGRAM

Parents who wish to have their child excluded from a school program because of religious beliefs must inform the superintendent. The board authorizes the administration to allow the exclusion if it is not disruptive to the education program and it does not infringe on a compelling state or educational interest. Further, the exclusion must not interfere with other school district operations.

In notifying the principal, the parents shall abide by the following:

- The notice shall be in writing;
- The objection shall be based on religious beliefs;
- The objection shall state which activities or studies violate their religious beliefs;
- The objection shall state why these activities or studies violate their religious beliefs; and
- The objection shall state a proposed alternate activity or study.

The principal shall have discretion to make this determination. The factors the principal shall consider when a student requests to be excluded from a program or activity because of religious beliefs include, but are not limited to, staff available to supervise a student who wishes to be excluded, space to house the student while the student is excluded, available superintendent-approved alternative course of study or activity while the student is excluded, number of students who wish to be excluded, whether allowing the exclusion places the school in a position of supporting a particular religion, and whether the program or activity is required for promotion to the next grade level or for graduation.

Students who are allowed to be excluded from a program or activity which violates their religious beliefs shall be required to do an alternate supervised activity or study.

## INSTRUCTION AT A POST-SECONDARY EDUCATIONAL INSTITUTION

In accordance with this policy, students in grades nine through twelve may receive academic or career and technical education credits that count toward the graduation requirements set out by the board for courses successfully completed in post-secondary educational institutions. Students and parents or guardians shall be made aware of the post-secondary instructional opportunities as part of the development of each student's individual career and academic plan as required by law. The Superintendent or designee is responsible for developing the appropriate forms and procedures for implementing this policy and the following post-secondary educational opportunities:

### **Concurrent Enrollment**

The board may, in its discretion, enter into a contractual agreement with a community college to provide courses for eligible students in grades nine through twelve when comparable courses are not offered by the school district. Notice of the availability of the concurrent enrollment program shall be included in the school district's registration handbook, and the handbook shall identify which courses, if successfully completed, generate post-secondary credit. Students shall not be charged tuition for concurrent enrollment courses and shall not be required to reimburse the school district for tuition if they do not successfully complete a course. Students or their parents or guardians may be required to pay a fee consistent with the school district's established textbook policy and other materials for the concurrent enrollment course to the extent permitted by law. Students or their parents or guardians may also be required to provide their own transportation to and from concurrent enrollment courses to the extent permitted by law. However, transportation shall be the responsibility of the school district for any contracted course that is used to meet school district accreditation requirements.

Students who successfully complete a concurrent enrollment course, as determined by the postsecondary institution, shall receive postsecondary credit in accordance with the institution's policies and high school credit that will be reflected on their high school transcript. The Superintendent or designee shall grant to a student who successfully completes a concurrent enrollment course a unit of high school graduation credit for every unit of high school level instruction successfully completed.

### **Post-Secondary Enrollment Option**

Ninth and tenth grade students who have been identified by the school district as gifted and talented, and eligible eleventh and twelfth grade students, may utilize the Post-Secondary Enrollment Option ("PSEO") program. To qualify, a course must be a nonsectarian, credit-bearing course that leads to a degree, and in the areas of: mathematics, science, social sciences, humanities, career and technical education. A course is not eligible for PSEO if a comparable course is offered by the school district. In addition, courses at a community college with which the district has a concurrent enrollment agreement are not eligible for PSEO. Students shall not be charged for tuition, textbooks, materials, or fees related to a PSEO course with the exception of equipment that becomes the property of the student.

The school district shall reimburse the post-secondary institution for tuition and other expenses for each PSEO course up to \$250. Students who successfully complete a PSEO course, as determined by the postsecondary institution, shall receive postsecondary credit and high school credit. The Superintendent or designee shall grant to a student who successfully completes a PSEO course a unit of high school graduation credit for every unit of high school level instruction successfully completed. Students may not enroll on a full-time basis to any post-secondary institution through the PSEO program.

Transportation to and from the postsecondary institution is the responsibility of the student or parent or legal guardian of the student enrolled in a PSEO course. Eligible students may take up to seven hours of post-secondary credit during the summer months and receive high school credit upon successful completion of a post-secondary course. However, the student or student's parent or legal guardian are responsible for all costs associated with courses taken during the summer.

Students who fail a PSEO course and fail to receive credit are required to reimburse the school district for all costs directly related to the course up to the \$250.00 reimbursement maximum. Prior to registering, students under the age of eighteen are required to have a parent or guardian sign a form indicating that the parent is responsible for the costs of the course should the student fail the course and fail to receive credit. Reimbursement waivers may be granted by the board if sufficient verification is provided to show that the student was unable to complete the course for reasons outside the student's control, including but not limited to physical incapacity, a death in the student's immediate family, or a move out of the school district. If a student is unable to demonstrate proficiency or the school district or accredited nonpublic school determines that the course unit completed by the student does not meet the school district's standards, the superintendent shall provide in writing to the student's parent or guardian the reason for the denial of credit.

## DUAL ENROLLMENT

The parent, guardian, or custodian of a student receiving competent private instruction may also enroll the student in the school district in accordance with state law and privacy. The student shall be considered under dual enrollment. The parent, guardian, or custodian requesting dual enrollment for the student should notify the board secretary no later than September 15 of the school year in which dual enrollment is sought on forms provided by the school district. On the form, they shall indicate the extracurricular and academic activities in which the student is interested in participating. The forms are available at the central administration office.

A dual enrollment student is eligible to participate in the school district's extracurricular and academic activities in the same manner as other students enrolled in the school district. The policies and administrative rules of the school district shall apply to the dual enrollment students in the same manner as the other students enrolled in the school district. These policies and administrative rules shall include, but not be limited to, athletic eligibility requirements, the good conduct rule, academic eligibility requirements, and payment of applicable fees.

A dual enrollment student whose parent, guardian, or custodian has chosen standardized testing as the form of the student's annual assessment will not be responsible for the cost of the test or the administration of the test.

After the student notifies the school district which activities in which they wish to participate, the school district will provide information regarding the specific programs.

The applicable legal requirements for dual enrollment including, but not limited to those related to reporting and eligibility, shall be followed. It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

## FOREIGN STUDENTS

Foreign students must meet all district entrance requirements including age, place of residence and immunization. The board reserves the right to limit the number of foreign students accepted. Students who are citizens of a foreign country will be considered residents if they meet one of the following requirements:

- The student resides with his/her parents(s) or legal guardian;
- The student is in the United States with appropriate documentation (Form I-20) from the United States Department of Justice-Immigration and Naturalization Services; or
- The student is a participant in a recognized foreign exchange program; and
- The student is physically able to attend school and has provided the school district with such proof, including a current TB test.

## ONLINE COURSES

The board recognizes that online coursework may be a good alternative for students to not only meet graduation requirements but, also have the opportunity to take advanced or other courses not offered by the school district.

High school students may earn a maximum of \_\_\_\_\_ credits to be applied toward graduation requirements by completing online courses offered through agencies approved by the board and Iowa Department of Education, such as Iowa Learning Online (ILO). Credit from an online course may be earned only in the following circumstances:

- The course is not offered at the high school;
- Although the course is offered at the high school, the student will not be able to take it due to an unavoidable scheduling conflict that would keep the student from meeting graduation requirements;
- The course will serve as a supplement to extend homebound instruction;
- The student has been given a long-term suspension from the regular school setting, but educational services are to be continued; or,
- The principal, with agreement from the student's teachers and parents, determines the student requires a differentiated or accelerated learning environment.

Students applying for permission to take an online course shall complete prerequisites and provide teacher/counselor recommendations to confirm the student possesses the maturity level needed to function effectively in the online learning environment. In addition, the express approval of the principal shall be obtained before a student enrolls in an online course. The school must receive an official record of the student's final percentage score and suggested grade before credit toward graduation will be recognized.

Provided online courses are part of the student's regular school day coursework and within budgetary parameters, the tuition costs for online courses shall be borne by the school district during the fall and spring semesters but may be passed on to the parent/guardian during the summer semester. Any additional costs, such as textbook rentals or school supplies, shall be borne by the Parents for students enrolled full-time.

It is the responsibility of the superintendent to develop administrative regulations to implement this policy.

INSTRUCTIONAL MATERIALS SELECTION

The board has sole discretion to choose instructional materials for the school district. This authority is may be delegated to licensed employees to determine which instructional materials, will be utilized by and purchased by the school district.

In reviewing current instructional materials for continued use and in selecting additional instructional materials, licensed employees shall consider the current and future needs of the school district as well as the changes and the trends in education and society. It shall be the responsibility of the superintendent to report to the board the action taken by licensed employees.

In the case of textbooks, the board shall make the final decision after receiving a recommendation from the superintendent. The criteria stated above for selection of other instructional materials shall apply to the selection of textbooks. The superintendent may develop another means for the selection of textbooks. Textbooks shall be reviewed as needed.

Education materials given to the school district must meet the criteria established above. The gift must be received in compliance with board policy.

## SELECTION OF INSTRUCTIONAL MATERIALS

## I. Responsibility for Selection of Instructional Materials

- A. The Board is responsible for matters relating to the operation of the Danville Community School District.
- B. The responsibility for the selection of instructional materials is delegated to the professionally trained and licensed employees of the school system. For the purpose of this rule the term "instructional materials" includes printed and multimedia materials (not equipment), whether considered text materials or library materials. The board retains the final authority for the approval of textbooks.
- C. While selection of materials may involve many people including principals, teachers, teacher-librarian, students, parents, and community members and, the responsibility for coordinating the selection of most instructional materials and making the recommendation for the purchase rests with licensed employees.
- D. Responsibility for coordinating the selection of text materials for distribution to classes will rest with the licensed employees, principal and superintendent. For the purpose of this rule the term 'text materials' includes textbooks and other printed and nonprinted material provided in multiple copies for use of a total class or major segment of a class.
- E. If the board appoints an ad hoc committee to make recommendations on the selection of instructional materials, the ad hoc committee shall be formed and appointed in compliance with the board policy on Ad Hoc Committees.
  1. The superintendent will inform the committee as to their role and responsibility in the process.
  2. The following statement shall be given to the ad hoc committee members:

*Bear in mind the principles of the freedom to learn and to read and base your decision on these broad principles rather than on defense of individual materials. Freedom of inquiry is vital to education in a democracy.*

*Study thoroughly all materials referred to you and read available reviews. The general acceptance of the materials should be checked by consulting standard evaluation aids and local holdings in other schools.*

*Passages or parts should not be pulled out of context. The values and faults should be weighed against each other and the opinions based on the material as a whole.*

## SELECTION OF INSTRUCTIONAL MATERIALS

*Your report, presenting both majority and minority opinions, will be presented by the principal to the complainant at the conclusion of our discussion of the questioned material.*

- II. Material selected for use in libraries and classrooms shall meet the following guidelines:
- A. Religion - Material shall represent the major religions in a factual, unbiased manner. The primary source material of the major religions shall be considered appropriate, but material which advocates rather than informs, or is designed to sway reader judgment regarding religion, shall not be included in the school libraries or classrooms.
  - B. Racism - Material shall present a diversity of race, custom, culture, and belief as a positive aspect of the nation's heritage and give candid treatment to unresolved intercultural problems, including those which involve prejudice, discrimination, and the undesirable consequences of withholding rights, freedom, or respect of an individual.
  - C. Sexism - Material shall reflect a sensitivity to the needs, rights, traits and aspirations of men and women without preference or bias.
  - D. Age - Material shall recognize the diverse contributions of various age groups and portray the continuing contributions of maturing members of society.
  - E. Ideology - Material shall present basic primary and factual information on an ideology or philosophy of government which exerts or has exerted a strong force, either favorably or unfavorably, over civilization or society, past or present. This material shall not be selected with the intention to sway reader judgment and shall be related to the maturity level of the intended audience.
  - F. Profanity and Sex - Material shall be subjected to a test of literary merit and reality by the teacher-librarians and licensed staff who will take into consideration their reading of public and community standards of morality.
  - G. Controversial issues materials will be directed toward maintaining a balanced collection representing various views.

The selection decision should be made on the basis of whether the material presents an accurate representation of society and culture, whether the circumstances depicted are realistically portrayed, or whether the material has literary or social value when the material is viewed as a whole.

These guidelines shall not be construed in such a manner as to preclude materials which accurately represent the customs, morals, manners, culture, or society of a different time or a different place.

## SELECTION OF INSTRUCTIONAL MATERIALS

### III. Procedure for Selection

- A. Material purchased for libraries and classrooms shall be recommended for purchase by licensed employees, in consultation with administrative staff, school library staff, students or an ad hoc committee as appointed by the board. The material recommended for purchase shall be approved by the appropriate building administrator.
1. The materials selected shall support stated objectives and goals of the school district. Specifically, the goals are:
    - a. To acquire materials and provide service consistent with the demands of the curriculum;
    - b. To develop students' skills and resourcefulness in the use of libraries and learning resources;
    - c. To effectively guide and counsel students in the selection and use of materials and libraries;
    - d. To foster in students a wide range of significant interests;
    - e. To provide opportunities for aesthetic experiences and development of an appreciation of the fine arts;
    - f. To provide materials to motivate students to examine their own attitudes and behaviors and to comprehend their own duties and responsibilities as citizens in a pluralistic democracy;
    - g. To encourage life-long education through the use of the library; and,
    - h. To work cooperatively and constructively with the instructional and administrative staff in the school.
  2. Materials selected shall be consistent with stated principles of selection. These principles are:
    - a. To select material, within established standards, which will meet the goals and objectives of the school district;
    - b. To consider the educational characteristics of the community in the selection of materials within a given category;
    - c. To present the sexual, racial, religious and ethnic groups in the community by:
      1. Portraying people, both men and women, adults and children, whatever their ethnic, religious or social class identity, as human and recognizable, displaying a familiar range of emotions, both negative and positive.
      2. Placing no constraints on individual aspirations and opportunity.
      3. Giving comprehensive, accurate, and balanced representation to minority groups and women - in art and science, history and literature, and in all other fields of life and culture.

### SELECTION OF INSTRUCTIONAL MATERIALS

4. Providing abundant recognition of minority groups and women by showing them frequently in positions of leadership and authority.
  - d. To intelligently, quickly, and effectively anticipate and meet needs through awareness of subjects of local, national and international interest and significance; and,
  - e. To strive for impartiality in the selection process.
3. The materials selected shall meet stated selection criteria. These criteria are:
- a. Authority-Author's qualifications - education, experience, and previously published works;
  - b. Reliability:
    1. Accuracy-meaningful organization and emphasis on content, meets the material's goals and objectives, and presents authoritative and realistic factual material.
    2. Current-presentation of content which is consistent with the finding of recent and authoritative research.
  - c. Treatment of subject-shows an objective reflection for the multi-ethnic character and cultural diversity of society.
  - d. Language:
    1. Vocabulary:
      - a. Does not indicate bias by the use of words which may result in negative value judgments about groups of people;
      - b. Does not use "man" or similar limiting word usage in generalization or ambiguities which may cause women to feel excluded or dehumanized.
    2. Compatible to the reading level of the student for whom it is intended.
  - e. Format:
    1. Book
      - a. Adequate and accurate index;
      - b. Paper of good quality and color;
      - c. Print adequate and well spaced;
      - d. Adequate margins;
      - e. Firmly bound; and,
      - f. Cost.

## SELECTION OF INSTRUCTIONAL MATERIALS

2. Nonbook
    - a. Flexibility, adaptability;
    - b. Curricular orientation of significant interest to students;
    - c. Appropriate for audience;
    - d. Accurate authoritative presentation;
    - e. Good production qualities (fidelity, aesthetically adequate);
    - f. Durability; and,
    - g. Cost.
  3. Illustrations of book and nonbook materials should:
    - a. Depict instances of fully integrated grouping and settings to indicate equal status and nonsegregated social relationships.
    - b. Make clearly apparent the identity of minorities;
    - c. Contain pertinent and effective illustrations;
  4. Flexible to enable the teacher to use parts at a time and not follow a comprehensive instructional program on a rigid frame of reference.
- f. Special Features:
1. Bibliographies.
  2. Glossary.
  3. Current charts, maps, etc.
  4. Visual aids.
  5. Index.
  6. Special activities to stimulate and challenge students.
  7. Provide a variety of learning skills.
- g. Potential use:
1. Will it meet the requirement of reference work?
  2. Will it help students with personal problems and adjustments?
  3. Will it serve as a source of information for teachers and librarians?
  4. Does it offer an understanding of cultures other than the student's own and is it free of racial, religious, age, disability, ethnic, and sexual stereotypes?
  5. Will it expand students' sphere of understanding and help them to understand the ideas and beliefs of others?
  6. Will it help students and teachers keep abreast of and understand current events?
  7. Will it foster and develop hobbies and special interest?
  8. Will it help develop aesthetic tastes and appreciation?

SELECTION OF INSTRUCTIONAL MATERIALS

9. Will it serve the needs of students with special needs?
  10. Does it inspire learning?
  11. Is it relevant to the subject?
  12. Will it stimulate a student's interest?
4. Gifts of library or instructional materials may be accepted if the gift meets existing criteria for library and instructional materials. The acceptance and placement of such gifts shall be within the discretion of the board.
  5. In order to provide a current, highly usable collection of materials, teacher-librarians shall ensure constant and continuing renewal of the collection, not only the addition of up-to-date materials, but by the judicious elimination of materials which no longer meet school district needs or find use. The process of weeding instructional materials will be done according to established and accepted standards for determining the relevance and value of materials in a given context.

## INSTRUCTIONAL MATERIALS INSPECTION

Parents and other members of the school district community may view the instructional materials used by the students. All instructional materials, including teacher's manuals, films, tapes or other supplementary material which will be used in connection with any survey, analysis, or evaluation as part of any federally funded programs must be available for inspection by parents.

The instructional materials must be viewed on school district premises. Copies may be obtained according to board policy.

It shall be the responsibility of the superintendent to develop administrative regulations regarding the inspection of instructional materials.

OBJECTION TO INSTRUCTIONAL MATERIALS

Members of the school district community may object to the instructional materials utilized in the school district and ask for their use to be reconsidered.

It is the responsibility of the superintendent, in conjunction with the principals, to develop administrative regulations for reconsideration of instructional materials.

The board will appoint a reconsideration committee when needed.

## INSTRUCTIONS TO THE RECONSIDERATION COMMITTEE

The policy of this school district related to selection of learning materials states that any resident of the district may formally challenge instructional materials used in the district's education program. This policy allows those persons in the school and the community who are not directly involved in the selection of materials to make their own opinions known. The task of the reconsideration committee is to provide an open forum for discussion of challenged materials and to make an informed recommendation on the challenge. The meetings of the committee may be subject to the open meetings law.

The most critical component of the reconsideration process is the establishment and maintenance of the committee's credibility in the community. For this purpose, the committee is composed of community members. The community should not, therefore, infer that the Committee is biased or is obligated to uphold prior professional decisions. For this same reason, a community member will be selected to chair the committee.

The reconsideration process, the task of this committee, is just one part of the selection continuum. Material is purchased to meet a need. It is reviewed and examined, if possible, prior to purchase. It is periodically re-evaluated through updating, discarding, or re-examination. The committee must be ready to acknowledge that an error in selection may have been made despite this process. Librarians and school employees regularly read great numbers of reviews in the selection process, and occasional errors are possible.

In reconsidering challenged materials, the role of the committee, and particularly the chairperson, is to produce a climate for disagreement. The committee should begin by finding items of agreement, keeping in mind that the larger the group participating, the greater the amount of information available and, therefore, the greater the number of possible approaches to the problem.

If the complainant chooses, the complainant may make an oral presentation to the committee to expand and elaborate on the complaint. The committee will listen to the complainant, to those with special knowledge, and any other interested persons. In these discussions, the committee should be aware of relevant social pressures which are affecting the situation. Individuals who may try to dominate or impose a decision must not be allowed to do so. Minority viewpoints expressed by groups or individuals must be heard, and observers must be made to feel welcome. It is important that the committee create a calm, nonvolatile environment in which to deal with a potentially volatile situation. To this end, the complainant will be kept informed of the progress of the complaint.

The committee will listen to the views of all interested persons before making recommendations. In deliberating its recommendation, the committee should remember that the school system must be responsive to the needs, tastes, and opinions of the community it serves. Therefore, the committee must distinguish between broad community sentiment and attempts to impose personal standards. The deliberations should concentrate on the appropriateness of the material. The question to be answered by the committee is, "Is the material appropriate for its designated audience at this time?"

INSTRUCTIONS TO THE RECONSIDERATION COMMITTEE

The committee's final recommendation will be (1) to remove the challenged material from the total school environment, (2) to take no removal action, or (3) to agree on a limitation of the educational use of the materials.

The committee chairperson will instruct the secretary to convey the committee's recommendation to the office of the superintendent. The recommendation should detail the rationale on which it was based. A letter will be sent to the complainant outlining the outcome.

SAMPLE LETTER TO INDIVIDUAL CHALLENGING INSTRUCTIONAL MATERIALS

Dear:

We recognize your concern about the use of \_\_\_\_\_ in our school district. The school district has developed procedures for selection of instructional materials but realizes that not everyone will agree with every selection made.

To help you understand the selection process, we are sending copies of the school district's:

1. Instructional goals and objectives,
2. Instructional Materials Selection policy statement, and
3. Procedure for reconsideration of instructional materials.

If you are still concerned after you review this material, please complete the Reconsideration Request Form and return it to me. You may be assured of prompt attention to your request. If I have not heard from you within one week, we will assume you no longer wish to file a formal complaint.

Sincerely,

## RECONSIDERATION OF INSTRUCTIONAL MATERIALS REGULATION

- A. A resident of the school district may raise an objection to instructional materials used in the school district's education program despite the fact that the individuals selecting such material were duly qualified to make the selection and followed the proper procedure and observed the criteria for selecting such material.
1. The school official or employee receiving a complaint regarding instructional materials will try to resolve the issue informally. The materials generally will remain in use pending the outcome of the reconsideration procedure.
    - a. The school official or employee initially receiving a complaint, will explain to the individual the board's selection procedure, criteria to be met by the instructional materials, and qualifications of those persons selecting the material.
    - b. The school official or employee initially receiving a complaint will explain to the individual the role of the objected material in the education program, its intended educational purpose, and additional information regarding its use. In the alternative, the employee may refer the individual to the teacher-librarian who can identify and explain the use of the material.
  2. The employee receiving the initial complaint will advise the building principal of the initial contact no later than the end of the school day following the discussion with the individual, whether or not the individual has been satisfied by the initial contact. A written record of the contact is maintained by the principal in charge of the attendance center. Each building principal shall inform employees of their obligation to report complaints.
  3. In the event the individual making an objection to instructional materials is not satisfied with the initial explanation, the individual is referred to the principal or to the teacher-librarian of the attendance center. If, after consultation with the principal or teacher-librarian, the individual desires to file a formal complaint, the principal or teacher-librarian will assist in filling out a Reconsideration Request Form in full and filing it with the superintendent.
- B. Request for Reconsideration
1. A resident of the school district may formally challenge instructional materials on the basis of appropriateness used in the school district's education program. This procedure is for the purpose of considering the opinions of those persons in the school district and the community who are not directly involved in the selection process.
  2. Each attendance center and the school district's central administrative office will keep on hand and make available Reconsideration Request Forms. Formal objections to instructional materials must be made on this form.

RECONSIDERATION OF INSTRUCTIONAL MATERIALS REGULATION

3. The individual will state the specific reason the instructional material is being challenged. The Reconsideration Request Form is signed by the individual and filed with the superintendent.
4. The superintendent will promptly file the objection with the reconsideration committee for re-evaluation.
5. Generally, access to challenged instructional material will not be restricted during the reconsideration process. However, in unusual circumstances, the instructional material may be removed temporarily by following the provisions of Section B.6.d. of this rule.
6. The Reconsideration Committee
  - a. The reconsideration committee is made up of eight members.
    - (1) One licensed employee designated annually, or as needed, by the superintendent.
    - (2) One teacher-librarian designated annually by the superintendent.
    - (3) One member of the administrative team designated annually by the superintendent.
    - (4) Three members of the community appointed annually, as needed, by the board.
    - (5) Two high school students, selected annually by the high school principal.
  - b. The committee will select their chairperson and secretary.
  - c. The committee will meet at the request of the superintendent.
  - d. Special meetings may be called by the board to consider temporary removal of materials in unusual circumstances. Temporary removal will require a two-thirds vote of the committee.
  - e. Notice of committee meetings is made public through appropriate publications and other communications methods.
  - f. The committee will receive the completed Reconsideration Request Form from the superintendent.
  - g. The committee will determine its agenda for the first meeting which may include the following:
    - (1) Distribution of copies of the completed Reconsideration Request Form.
    - (2) An opportunity for the individual or a group spokesperson to talk about or expand on the Reconsideration Request Form.
    - (3) Distribution of reputable, professionally prepared reviews of the challenged instructional material if available.
    - (4) Distribution of copies of the challenged instructional material as available.
  - h. The committee may review the selection process for the challenged instructional material and may, to its satisfaction, determine that the challenge is without merit and dismiss the challenge. The committee will notify the individual and the superintendent of its action.

## RECONSIDERATION OF INSTRUCTIONAL MATERIALS REGULATION

- i. At a subsequent meeting, if held, interested persons, including the individual filing the challenge, may have the opportunity to share their views. The committee may request that individuals with special knowledge be present to give information to the committee.
- j. The individual filing the challenge is kept informed by the reconsideration committee secretary on the status of the Reconsideration Request Form throughout the reconsideration process. The individual filing the challenge and known interested parties is given appropriate notice of meetings.
- k. At the second or a subsequent meeting the committee will make its final recommendation. The committee's final recommendation may be to take no removal action, to remove the challenged material from the school environment, or to limit the educational use of the challenged material. The sole criterion for the final recommendation is the appropriateness of the material for its intended educational use. The written final recommendation and its justification are forwarded to the board, the individual and the appropriate attendance centers. The superintendent may also make a recommendation but if so, it should be independent from the committee's.

Following the superintendent's decision with respect to the committee's recommendation, the individual or the chairperson of the reconsideration committee may appeal the decision to the board for review. Such appeal must be presented to the superintendent in writing within five days following the announcement of the superintendent's decision. The board will promptly determine whether to hear the appeal.

- l. A recommendation to sustain a challenge will not be interpreted as a judgment of irresponsibility on the part of the individuals involved in the original selection or use of the material.
- m. Requests to reconsider materials which have previously been reconsidered by the committee must receive approval of two-thirds of the committee members before the materials will again be reconsidered.
- n. If necessary or appropriate in the judgment of the committee, the committee may appoint a subcommittee of members or nonmembers to consolidate challenges and to make recommendations to the full committee. The composition of this subcommittee will approximate the representation of the full committee.

Committee members directly associated with the selection, use, or challenger of the challenged material are excused from the committee during the deliberation of the challenged instructional materials. The superintendent may appoint a temporary replacement for the excused committee member, but the replacement must be of the same general qualifications as the member excused.

- o. Persons dissatisfied with the decision of the board may appeal to the Iowa Board of Education pursuant to state law.

TECHNOLOGY AND INSTRUCTIONAL MATERIALS

The board supports the use of innovative methods and the use of technology in the delivery of the education program. The board encourages employees to investigate economical ways to utilize multi-media, computers, and other technologies as a part of the curriculum.

It shall be the responsibility of the superintendent to develop a plan for the use of technology in the curriculum and to evaluate it annually. The superintendent shall report the results of the evaluation and make a recommendation to the board annually regarding the use of technology in the curriculum.

SCHOOL LIBRARY

The school district shall maintain a school library in each building for use by employees and by students during the school day.

Materials for the centers will be acquired according to board policy, "Instructional Materials Selection."

It shall be the responsibility of the principal of the building to oversee the teacher/librarian.

It shall be the responsibility of the teacher/librarian to develop procedures for the selection and replacement of both library and instructional materials, for the acceptance of gifts, for the weeding of library and instructional materials, and for the handling of challenges to either library or classroom materials.

TECHNOLOGY AND INTERNET ACCEPTABLE USE POLICY  
Information Technology Availability and Acceptable Use Policy

The Danville Community School district Board of Directors recognizes that digital literacy is a growing and already pervasive expectation in our society. Additionally, the use of information technology as an aid to instruction and learning has the potential to improve the academic success of our students as well as the productivity of all our administrative, instruction, and critical infrastructure staff. Finally, it is critical that we safeguard the confidentiality and accuracy of our data. It is thus the policy of the Danville community School District to provide such current Information Technology as an be reasonably expected to improve student achievement, staff productivity and data integrity within the framework of the financial stability and values of the district.

It is the policy of the Danville Community School District to expect that students and employees of the District will use all information technology, whether hardware or software, in a responsible manner. The administrative staff is directed to develop and maintain separate guidelines to be published in student and employee handbooks, as applicable. The guidelines shall explain the following Acceptable Use Policy, additional guidance, and the consequences of the failure to comply. The guidelines shall be provided to the Board of Directors prior to each school year for approval and shall be consistent with the following general Acceptable Use Policy:

- Inappropriate use of information technology shall be determined by the School Administration on a case by case basis and may lead to penalties ranging from verbal reprimand to suspension at the discretion of the Administrator involved. Due process shall be followed in all disciplinary action.
- No student, district employee, or AEA staff may use any information technology in or on District property without first reading and signing a document stating they understand the Guidelines and the consequences of violating the Policy. Parents of students shall also be required to sign a form indicating that they have read and understood the Policy.
- Use shall be in compliance with all Federal, State, and local laws.
- Use of all District-provided Information Technology is a right and not a privilege. This absolutely includes access to or through our network servers.
- Information technology resources are to be used in a manner consistent with the educational objectives of the District.
- Users, whether students or employees, shall expect no guarantee of privacy on ANY information technology device used on District property and appropriate District representative shall be authorized to monitor and record such use from time to time.
- Appropriate staff shall supervise student use of equipment.

The District shall take all available precautions to ensure that students have access to such written, verbal, and visual information that is consistent with the values of our community. However there is no written or implied guarantee that an individual may not intentionally or in error access unacceptable information.

## TECHNOLOGY AND THE INTERNET ACCESS PERMISSION LETTER TO PARENTS

Your child has access to electronic communication known as the Internet. The Internet is a collection of more than 20,000 interconnected computer networks. The vast domain of information contained within Internet's libraries can provide unlimited opportunities to students.

Students may be able to access the Internet and are expected to follow AUP of the Danville Community School District. Individual student electronic mail addresses will be issued to students.

Students will be expected to abide by the following network etiquette:

- The use of the network is a privilege and may be taken away for violation of board policy or regulations. As a user of Technology and the Internet, students may be allowed access to other networks. Each network may have its own set of policies and procedures. Students will abide by the policies and procedures of these other networks.
- Students will respect all copyright and license agreements.
- Students will cite all quotes, references, and sources.
- Students will only remain on the system long enough to get needed information.
- Students will apply the same privacy, ethical and educational considerations utilized in other forms of communication.
- Student access for electronic mail will be through his/her own account. Students should adhere to the following guidelines:
  - Others may be able to read or access the mail, so private messages should not be sent.
  - Delete unwanted messages immediately.
  - Use of objectionable language is prohibited.
  - Always sign messages.
  - Always acknowledge receipt of a document or file.
- Students accessing Technology and the Internet that have a cost involved will be responsible for payment of those costs.

NOTE: Since Technology is listed separately from the Internet, this form has two sections, which is different from original policy.

TECHNOLOGY AND THE INTERNET ACCESS PERMISSION LETTER TO PARENTS

Please sign the form if you would like your child to be granted Technology access and return the form to your child's school.

Student Name \_\_\_\_\_ Grade \_\_\_\_\_  
School \_\_\_\_\_ Date \_\_\_\_\_

\_\_\_\_\_  
(Parent or guardian's signature)

If you have granted your child Technology access, please have them respond to the following:

I have read the expected network etiquette and agree to abide by these provisions. I understand that violation of these provisions may constitute suspension or revocation of Technology privileges.

I agree to be responsible for payment of costs incurred by accessing any Technology services that have a cost involved.

TECHNOLOGY AND THE INTERNET APPROPRIATE USE VIOLATION NOTICE

Student: \_\_\_\_\_

Teacher: \_\_\_\_\_

Date: \_\_\_\_\_

Students who access restricted items on the Internet are subject to the appropriate action described in the school's discipline policy, student handbook, or to the following consequences:

Consequences for Inappropriate Use of the Technology:

Any student who violates the Technology and the Internet Appropriate Use Policy will be subject to penalties as set by administration. Communication to parents will be verbal and/or written. All consequences are at the discretion of the building principal or administration based on severity of the offense and history of past offenses.

## TECHNOLOGY AND THE INTERNET ACCEPTABLE USE REGULATION FOR STUDENTS

### I. Definition of Responsibility for Technology, the Internet, and Personal Electronic Devices Appropriate Use.

- A. The Internet is defined as: an electronic communication network that connects computer networks and organizational computer facilities around the world.
- Specific to Danville Community School District: The Internet may be classified as any information accessed through, but not limited to, an Internet browser, e-mail reader, or file transfer program (i.e. Firefox, Safari, Internet Explorer, or Outlook, I-mail, iChat, or any peer-to-peer exchange).

Instruction in the proper use of the Internet system will be available to employees who will then provide similar instruction to their students.

- B. Technology is defined as: The district encourages the appropriate use of technology-based instructional tools and information resources by students. These resources include district owned computers, productivity software tools, instructional software, networks, electronic media, and telecommunications tools, such as access to internet resources. These district-provided resources and tools are provided solely for the advancement and promotion of learning and teaching. The use of these resources will be consistent with the district's educational mission and policies, as well as state and federal laws and regulations.

Instruction in the proper use of Technology will be available to employees who will then provide similar instruction to their students.

- C. Personal electronic devices are defined as non-district-owned property. These may include, but are not limited to: computers, cameras, mp3s, ipods, flash drives, cell phones, iPads, readers (Nooks, Kindles, etc.), and personal gaming devices.

II. Internet Access.

- A. Access to the Internet is available to students as a source of information and a vehicle of communication.
- B. Students will be able to access the Internet and are expected to follow AUP of the Danville Community School District.. Individual student accounts may be issued to students at this time.
  - 1. Making Internet access available to students carries with it the potential that some students might encounter information that may not be appropriate for students. However, on a global network, it is impossible to control all materials. Because information on the Internet appears, disappears and changes, it is not possible to predict or control what students may locate.
  - 2. It is a goal to allow teachers and students access to the rich opportunities on the Internet, while we protect the rights of students and parents who choose not to risk exposure to questionable material.
  - 3. The smooth operation of the network relies upon the proper conduct of the end users who must adhere to strict guidelines which require efficient, ethical and legal utilization of network resources.
  - 4. To reduce unnecessary system traffic, users may use real-time conference features such as talk/chat/Internet relay chat only as approved by the supervising teacher.
  - 5. Transmission of material, information or software in violation of any board policy or regulation is prohibited.
  - 6. The school district makes no guarantees as to the accuracy of information received on the Internet.
  - 7.

III. Permission to Use Technology and the Internet - Annually, parents shall grant permission for their student to use the Internet using the prescribed form.

IV. Student Use of Internet.

- A. Equal Opportunity – Technology and the Internet shall be available to all students within the school district. The amount of time provided for each student may be limited by availability and staff discretion.
- B. On-line Etiquette.
  - 1. The use of the network is a privilege and may be taken away for violation of board policy or regulations. As a user of the Internet, students may be allowed access to other networks. Each network may have its own set of policies and procedures. It is the user's responsibility to abide by the policies and procedures of these other networks.
  - 2. Students should adhere to on-line protocol:
    - a. Respect all copyright and license agreements.
    - b. Cite all quotes, references and sources.
    - c. Remain on the system long enough to get needed information, then exit the system.
    - d. Apply the same privacy, ethical and educational considerations utilized in other forms of communication.

**Appropriate Use of E-mail Accounts:**

The Danville Community School District issues e-mail accounts to students to be used in school related activities. Students' access to these e-mail accounts are at the discretion of the district.

All programs contained on district owned computer or servers are the sole property of the district and should not be tampered with, removed, or illegally transferred from said district owned property.

Appropriate use of e-mail accounts include:

- 1. Communication with teachers.
- 2. Submitting assignments.
- 3. Collaboration with group members on teacher assigned group projects.

Inappropriate use of e-mail accounts include, but are not limited to:

- 1. Sending inflammatory messages to other students, staff, or non-school related persons.
- 2. Harassment of other students.
- 3. Sending inappropriate images to other people or groups of people.
- 4. violating copyright or plagiarism policies.
- 5. Transferring files to misrepresent the ownership of the original document.

- C. Restricted Material - Students shall not intentionally access or download any text file or picture or engage in any conference that includes material which is obscene, libelous, indecent, vulgar, profane or lewd; advertises any product or service not permitted to minors by law; constitutes insulting or fighting words, the very expression of which injures or harasses others; or presents a clear and present likelihood that, either because of its content or the manner of distribution, it will cause a material and substantial disruption of the proper and orderly operation and discipline of the school or school activities, will cause the commission of unlawful acts or the violation of lawful school regulations.
- D. Unauthorized Costs - If a student gains access to any service via the Internet which has a cost involved or if a student incurs other types of costs, the student accessing such a service will be responsible for those costs.

V. Use of Personal Electronic Devices:

- The use of cell phones (including but not limited to voice calls, text messaging, cameras, videos, internet use, and games) will not be permitted during the school day.
- Readers (Nooks, Kindles, etc.) will be permitted for school appropriate use.
- iPods and MP3 players may be used by students (grades 9-12) with teacher discretion only. iPods may be used if students are NOT on mid-term or D/F list (reconsideration of eligibility will be done every 4 weeks). All music must be school appropriate. If a teacher or supervisor finds that music is inappropriate, the student will lose their privilege.
- Students (grades 7 & 8) will not be permitted to use iPods unless for direct education purposes.

VI. Student Violations

**Consequences for Inappropriate Use of Technology**

Any student who violates the Technology and the Internet Appropriate Use Policy will be subject to penalties as set by administration. Communication to parents will be verbal and/or written. All consequences are at the discretion of the building principal or administration based on severity of the offense and history of past offenses.

**Use of Personal Electronic Devices:**

**Infraction** – Personal Electronic devices

**First Offense** – Verbal warning to student.

**Second Offense** – Parent/guardian must pick up device from office.

**Third Offense** – Parent/guardian must pick up device from office and a detention that must be served before phone is returned.

**Fourth Offense** – Parent/guardian must pick up device from office and a Saturday Detention that must be served before phone is returned.

**Fifth Offense** – Out of school suspension.

SCHOOL DISTRICT WEB PAGE

The internet provides a valuable learning tool for students and staff and offers another communications vehicle for informing the public about school programs and activities. The board authorizes the establishment of a school district web page.

The superintendent, along with the district technology coordinator is responsible for assigning an individual responsible for maintaining the web pages. The superintendent, in conjunction with the responsible individual, will develop administrative regulations regarding the web site. The superintendent is responsible for overseeing the technology coordinator who is responsible for the website.

## USE OF INFORMATION RESOURCES

In order for students to experience a diverse curriculum, the board encourages employees to supplement their regular curricular materials with other resources. In so doing, the board recognizes that federal law makes it illegal to duplicate copyrighted materials without authorization of the holder of the copyright, except for certain exempt purposes. Severe penalties may be imposed for plagiarism, unauthorized copying or using of media, including, but not limited to, print, electronic and web-based materials, unless the copying or using conforms to the "fair use" doctrine. Under the "fair use" doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship or research providing that all fair use guidelines are met.

While the school district encourages employees to enrich the learning programs by making proper use of supplementary materials, it is the responsibility of employees to abide by the school district's copying procedures and obey the requirements of the law. In no circumstances shall it be necessary for school district staff to violate copyright requirements in order to perform their duties properly. The school district will not be responsible for any violations of the copyright law by employees or students. Violation of the copyright law by employees may result in discipline up to, and including, termination. Violation of the copyright law by students may result in discipline, up to and including, suspension or expulsion.

Parents or others who wish to record, by any means, school programs or other activities need to realize that even though the school district received permission to perform a copyrighted work does not mean outsiders can copy it and re-play it. Those who wish to do so should contact the employee in charge of the activity to determine what the process is to ensure the copyright law is followed. The school district is not responsible for outsiders violating the copyright law or this policy.

Any employee or student who is uncertain as to whether reproducing or using copyrighted material complies with the school district's procedures or is permissible under the law should contact the *principal, teacher or teacher-librarian* who will also assist employees and students in obtaining proper authorization to copy or use protected material when such authorization is required.

It is the responsibility of the superintendent, in conjunction with the *principal, teacher or teacher-librarian*, to develop administrative regulations regarding this policy.

                                  281 I.A.C. 12.3(12).

Cross References:        605.6    Internet Appropriate Use

Approved October 8, 2007

Reviewed May 14, 2012

Revised June 11, 2012

## USE OF INFORMATION RESOURCES REGULATION

Employees and students may make copies of copyrighted materials that fall within the following guidelines. Where there is reason to believe the material to be copied does not fall within these guidelines, prior permission shall be obtained from the publisher or producer with the assistance of the *principal, teacher, teacher-librarian*. Employees and students who fail to follow this procedure may be held personally liable for copyright infringement and may be subject to discipline by the board.

Under the "fair use" doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship or research. Under the fair use doctrine, each of the following four standards must be met in order to use the copyrighted document:

- Purpose and Character of the Use – The use must be for such purposes as teaching or scholarship.
- Nature of the Copyrighted Work – The type of work to be copied.
- Amount and Substantiality of the Portion Used – Copying the whole of a work cannot be considered fair use; copying a small portion may be if these guidelines are followed.
- Effect of the Use Upon the Potential Market for or value of the Copyrighted Work – If resulting economic loss to the copyright holder can be shown, even making a single copy of certain materials may be an infringement, and making multiple copies presents the danger of greater penalties.

### **Authorized Reproduction and Use of Copyrighted Material Reminders:**

- Materials on the Internet should be used with caution since they may, and likely are, copyrighted.
- Proper attribution (author, title, publisher, place and date of publication) should always be given.
- Notice should be taken of any alterations to copyrighted works, and such alterations should only be made for specific instructional objectives.
- Care should be taken in circumventing any technological protection measures. While materials copied pursuant to fair use may be copied after circumventing technological protections against unauthorized copying, technological protection measures to block access to materials may not be circumvented.

In preparing for instruction, a teacher may make or have made a single copy of:

- A chapter from a book;
- An article from a newspaper or periodical;
- A short story, short essay or short poem; or,
- A chart, graph, diagram, drawing, cartoon or picture from a book, periodical or newspaper.

A teacher may make multiple copies not exceeding more than one per pupil, for classroom use or discussion, if the copying meets the tests of "brevity, spontaneity and cumulative effect" set by the following guidelines. Each copy must include a notice of copyright.

- Brevity
  - A complete poem, if less than 250 words and two pages long, may be copied; excerpts from longer poems cannot exceed 250 words;
  - Complete articles, stories or essays of less than 2500 words or excerpts from prose works less than 1000 words or 10% of the work, whichever is less may be copied; in any event, the minimum is 500 words;
  - Each numerical limit may be expanded to permit the completion of an unfinished line of a poem or prose paragraph;

## USE OF INFORMATION RESOURCES REGULATION

- One chart, graph, diagram, drawing, cartoon or picture per book or periodical issue may be copied. “Special” works cannot be reproduced in full; this includes children's books combining poetry, prose or poetic prose. Short special works may be copied up to two published pages containing not more than 10 percent of the work.
- Spontaneity – Should be at the “instance and inspiration” of the individual teacher when there is not a reasonable length of time to request and receive permission to copy.
- Cumulative Effect – Teachers are limited to using copied material for only one course for which copies are made. No more than one short poem, article, story or two excerpts from the same author may be copied, and no more than three works can be copied from a collective work or periodical column during one class term. Teachers are limited to nine instances of multiple copying for one course during one class term. Limitations do not apply to current news periodicals, newspapers and current news sections of other periodicals.

### Copying Limitations

Circumstances will arise when employees are uncertain whether or not copying is prohibited. In those circumstances, the *principal, teacher or teacher-librarian* should be contacted. The following prohibitions have been expressly stated in federal guidelines:

- Reproduction of copyrighted material shall not be used to create or substitute for anthologies, compilations or collective works.
- Unless expressly permitted by agreement with the publisher and authorized by school district action, there shall be no copying from copyrighted consumable materials such as workbooks, exercises, test booklets, answer sheets and the like.
- Employees shall not:
  - Use copies to substitute for the purchase of books, periodicals, music recordings, consumable works such as workbooks, computer software or other copyrighted material. Copy or use the same item from term to term without the copyright owner's permission;
  - Copy or use more than nine instances of multiple copying of protected material in any one term;
  - Copy or use more than one short work or two excerpts from works of the same author in any one term;
  - Copy or use protected material without including a notice of copyright. The following is a satisfactory notice: NOTICE: THIS MATERIAL MAY BE PROTECTED BY COPYRIGHT LAW.
  - Reproduce or use copyrighted material at the direction of someone in higher authority or copy or use such material in emulation of some other teacher's use of copyrighted material without permission of the copyright owner.
  - Require other employees or students to violate the copyright law or fair use guidelines.

### Authorized Reproduction and Use of Copyrighted Materials in the Library

A library may make a single copy or three digital copies of:

- An unpublished work in its collection;
- A published work in order to replace it because it is damaged, deteriorated, lost or stolen, provided that an unused replacement cannot be obtained at a fair price.
- A work that is being considered for acquisition, although use is strictly limited to that decision. Technological protection measures may be circumvented for purposes of copying materials in order to make an acquisition decision.

## USE OF INFORMATION RESOURCES REGULATION

A library may provide a single copy of copyrighted material to a student or employee at no more than the actual cost of photocopying. The copy must be limited to one article of a periodical issue or a small part of other material, unless the library finds that the copyrighted work cannot be obtained elsewhere at a fair price. In the latter circumstance, the entire work may be copied. In any case, the copy shall contain the notice of copyright and the student or staff member shall be notified that the copy is to be used only for private study, scholarship or research. Any other use may subject the person to liability for copyright infringement.

### **Authorized Reproduction and Use of Copyrighted Music or Dramatic Works**

Teachers may:

- Make a single copy of a song, movement, or short section from a printed musical or dramatic work that is unavailable except in a larger work for purposes of preparing for instruction;
- Make multiple copies for classroom use of an excerpt of not more than 10% of a printed musical work if it is to be used for academic purposes other than performance, provided that the excerpt does not comprise a part of the whole musical work which would constitute a performable unit such as a complete section, movement, or song;
- In an emergency, a teacher may make and use replacement copies of printed music for an imminent musical performance when the purchased copies have been lost, destroyed or are otherwise not available.
- Make and retain a single recording of student performances of copyrighted material when it is made for purposes of evaluation or rehearsal;
- Make and retain a single copy of excerpts from recordings of copyrighted musical works for use as aural exercises or examination questions; and,
- Edit or simplify purchased copies of music or plays provided that the fundamental character of the work is not distorted. Lyrics shall not be altered or added if none exist.

Performance by teachers or students of copyrighted musical or dramatic works is permitted without the authorization of the copyright owner as part of a teaching activity in a classroom or instructional setting. The purpose shall be instructional rather than for entertainment.

Performances of nondramatic musical works that are copyrighted are permitted without the authorization of the copyright owner, provided that:

- The performance is not for a commercial purpose;
- None of the performers, promoters or organizers are compensated; and,
- Admission fees are used for educational or charitable purposes only.

All other musical and dramatic performances require permission from the copyright owner. Parents or others wishing to record a performance should check with the sponsor to ensure compliance with copyright.

### **Recording of Copyrighted Programs**

Television programs, excluding news programs, transmitted by commercial and non-commercial television stations for reception by the general public without charge may be recorded off-air simultaneously with broadcast transmission (including simultaneous cable retransmission) and retained by a school for a period not to exceed the first forty-five (45) consecutive calendar days after date of

## USE OF INFORMATION RESOURCES REGULATION

recording. Upon conclusion of this retention period, all off-air recordings must be erased or destroyed immediately. Certain programming such as that provided on public television may be exempt from this provision; check with the *principal, teacher or teacher librarian* or the subscription database, e.g. unitedstreaming.

Off-air recording may be used once by individual teachers in the course of instructional activities, and repeated once only when reinforcement is necessary, within a building, during the first 10 consecutive school days, excluding scheduled interruptions, in the 45 calendar day retention period. Off-air recordings may be made only at the request of and used by individual teachers, and may not be regularly recorded in anticipation of requests. No broadcast program may be recorded off-air more than once at the request of the same teacher, regardless of the number of times the program may be broadcast. A limited number of copies may be reproduced from each off-air recording to meet the legitimate needs of teachers. Each additional copy shall be subject to all provisions governing the original recording.

After the first ten consecutive school days, off-air recordings may be used up to the end of the 45 calendar day retention period only for evaluation purposes, i.e., to determine whether or not to include the broadcast program in the teaching curriculum. Permission must be secured from the publisher before the recording can be used for instructional purposes after the 10 day period.

Off-air recordings need not be used in their entirety, but the recorded programs may not be altered from their original content. Off-air recordings may not be physically or electronically combined or merged to constitute teaching anthologies or compilations. All copies of off-air recordings must include the copyright notice on the broadcast program as recorded.

### **Authorized Reproduction and Use of Copyrighted Computer Software**

Schools have a valid need for high-quality software at reasonable prices. To assure a fair return to the authors of software programs, the school district shall support the legal and ethical issues involved in copyright laws and any usage agreements that are incorporated into the acquisition of software programs. To this end, the following guidelines shall be in effect:

- All copyright laws and publisher license agreements between the vendor and the school district shall be observed;
- Staff members shall take reasonable precautions to prevent copying or the use of unauthorized copies on school equipment;
- A back-up copy shall be purchased, for use as a replacement when a program is lost or damaged. If the vendor is not able to supply a replacement, the school district shall make a back-up copy that will be used for replacement purposes only;
- A copy of the software license agreement shall be retained by the, *board secretary, technology director or teacher-librarian*; and,
- A computer program may be adapted by adding to the content or changing the language. The adapted program may not be distributed.

### **Fair Use Guidelines for Educational Multimedia**

Students may incorporate portions of copyrighted materials in producing educational multimedia projects such as videos, Power Points, podcasts and web sites for a specific course, and may perform, display or retain the projects.

## USE OF INFORMATION RESOURCES REGULATION

Educators may perform or display their own multimedia projects to students in support of curriculum-based instructional activities. These projects may be used:

- In face-to-face instruction;
- In demonstrations and presentations, including conferences;
- In assignments to students;
- For remote instruction if distribution of the signal is limited;
- Over a network that cannot prevent duplication for fifteen days, after fifteen days a copy may be saved on-site only; or,
- In their personal portfolios.

Educators may use copyrighted materials in a multimedia project for two years, after that permission must be requested and received.

The following limitations restrict the portion of any given work that may be used pursuant of fair use in an educational multimedia project:

- Motion media: ten percent or three minutes, whichever is less;
- Text materials: ten percent or 1,000 words, whichever is less;
- Poetry: an entire poem of fewer than 250 words, but no more than three poems from one author or five poems from an anthology. For poems of greater than 250 words, excerpts of up to 250 words may be used, but no more than three excerpts from one poet or five excerpts from an anthology;
- Music, lyrics and music video: Up to ten percent, but no more than thirty seconds. No alterations that change the basic melody or fundamental character of the work;
- Illustrations, cartoons and photographs: No more that five images by an artist, and no more than ten percent or fifteen images whichever is less from a collective work;
- Numerical data sets: Up to ten percent or 2,500 field or cell entries, whichever is less;

Fair use does not include posting a student or teacher's work on the Internet if it includes portions of copyrighted materials. Permission to copy shall be obtained from the original copyright holder(s) before such projects are placed online. The opening screen of such presentations shall include notice that permission was granted and materials are restricted from further use.

***Notices – Before including this section, make sure employees are ready to comply with it and notices are posted.***

*The superintendent, principal, teacher, teacher-librarian is responsible for ensuring that appropriate warning devices are posted. The warnings are to educate and warn individuals using school district equipment of the copyright law. Warning notices must be posted:*

- *On or near copiers;*
- *On forms used to request copying services;*
- *On video recorders;*
- *On computers; and,*
- *At the library and other places where interlibrary loan orders for copies of materials are accepted.*

## STUDENT LIBRARY CIRCULATION RECORDS

Student library circulation records are designed to be used internally to assist in the orderly administration of the school district libraries. As a general rule, student library circulation records are considered confidential records and will not be released without parental consent. Individuals who may access such records include a student's parents, the student, authorized licensed employees, authorized government officials from the U.S. Comptroller General, the Secretary of Education, the Commissioner and Director of the National Institute of Education, and the Assistant Secretary for Education and State Education Department. Appropriate authorities in a health or safety emergency may access the student's library circulation records without the approval or the notification of the student's parents. Parents may not access records, without the student's permission, of a student who has reached the age of majority or who is attending a post-secondary educational institution unless the student is considered a dependent for tax purposes.

It is the teacher-librarian's responsibility, as the person maintaining the student library circulation records, to approve requests for access to student library circulation records. Students' library circulation records may be accessed during the regular business hours of the school district. If copies of documents are requested, a fee for such copying may be charged.

It is the responsibility of the superintendent, in conjunction with the teacher or teacher-librarian, to develop administrative regulations regarding this policy.

***NOTE: This is a mandatory policy and a reflection of federal and Iowa law.***

SHARED STUDENTS

The board may make arrangements for sharing students with neighboring school districts in order to expand the opportunities available in the education program or in the operation of the school district. It shall be within the discretion of the board to determine when and with which school district sharing agreements will be made.

It shall be the responsibility of the superintendent to bring to the board's attention opportunities for sharing students with neighboring school districts.

CLASS SIZE - CLASS GROUPING

It shall be within the sole discretion of the board to determine the size of classes and to determine whether class grouping shall take place. The board may review the class sizes annually.

It shall be the responsibility of the superintendent to make a recommendation to the board on class size based upon the financial condition of the school district, the qualifications of and number of licensed employees, and other factors deemed relevant to the board.

## HOMEWORK

Homework, extra class activities or assignments beyond the regular classroom instruction program are a part of the education program. Homework will be an extension and an enrichment of the classroom instruction.

Homework shall be an opportunity for students to practice skills and activities, to share and discuss ideas, to review materials, to become acquainted with resources, to organize thoughts, to prepare for classroom activity, or to make up incomplete assignments.

The amount of homework in all grades shall be appropriate and reasonable.

Guidelines regarding homework shall be developed in conjunction with the curriculum of the education program.

SCHOOL CEREMONIES AND OBSERVANCES

The school district will continue school ceremonies and observances which have become a tradition and a custom of the education program. These include, but are not limited to, reciting the Pledge of Allegiance and observance of holidays, such as Christmas, Halloween and Easter, by programs and performances. Such ceremonies or observances shall have a secular purpose and shall not advocate or sponsor a particular religion.

Students who do not wish to participate in these activities may be silent during the ceremony or observance or receive permission from the principal to be excused from the ceremony for religious reasons in compliance with board policy.

ANIMALS IN THE CLASSROOM

Live animals will be allowed in school district facilities for an educational purpose. Permission from the principal will be required of anyone wishing to bring an animal into school district facilities. Appropriate supervision of animals is required when animals are brought into the school district facilities.

The person bringing the animal must furnish transportation for the animal brought to school. Animals will not be allowed to travel to and from the student's attendance center on the school bus.

It shall be the responsibility of the principal to determine appropriate supervision of animals in the classroom.

## STUDENT FIELD TRIPS AND EXCURSIONS

The principal may authorize field trips and excursions when such events contribute to the achievement of education goals of the school district. The school district will provide transportation for field trips and excursions.

In authorizing field trips and excursions, the principal shall consider the financial condition of the school district, the educational benefit of the activity, the inherent risks or dangers of the activity, and other factors deemed relevant by the superintendent. Written parental permission will be required prior to the student's participation in field trips and excursions. Board approval will be required for field trips and excursions which involve out-of-state travel, overnight stays, unusual length or expense.

Field trips and excursions are to be arranged with the principal well in advance. A detailed schedule and budget must be submitted by the employee. The school district will be responsible for obtaining a substitute teacher if one is needed. Following field trips and excursions, the teacher may be required to submit a written summary of the event.

## STUDENT HEALTH SERVICES

Health services are an integral part of comprehensive school improvement, assisting all students to increase learning, achievement, and performance. Health services coordinate and support existing programs to assist each student in achievement of an optimal state of physical, mental and social well being. Student health services ensure continuity and create linkages between school, home, and community service providers. The school district's comprehensive school improvement plan, needs, and resources determine the linkages.

The superintendent, in conjunction with the school nurse will develop administrative regulations implementing this policy. The superintendent will provide a written report on the role of health services in the education program to the board annually.

ADULT EDUCATION

The board supports post-high school and adult education programs for the members of the school district community. The goal of the adult education program shall be to prepare individuals for democratic citizenship, to provide them with means for economic improvement and cultural development, and to enrich their personal lives.

The school district facilities shall be available for these education programs as long as they do not interfere with or disrupt the education program or other school district activities. It shall be the responsibility of the superintendent to oversee these programs.

No programs will be operated unless a predetermined number of individuals register for the program. This number shall be determined based upon the costs of the program. Proposed changes to post-high school and adult education programs shall be made in the manner set forth by the superintendent.

Adult education programs shall be provided in conjunction with a local post-secondary institution.
